Retire	10:00 p. m.

RECREATION HALL.

FACULTY

1924 and 1925.

ADMINISTRATION

G. P. RUSSELL, LL. D., *President.*

P. W. L. JONES, A. B., *Dean.*

MISS EUNICE D. COWEN, *Secretary to the President.*

MISS BEATRICE BONNIE BROWN, *Bookkeeper.*

INSTRUCTORS

ENGLISH

ROBT. G. FLETCHER, A. B., Fisk University,
High School and College English.
MRS. GEORGIA R. WATSON, B. S., Clark University,
English, Penmanship and Drawing.
J. A. BOND, A. B., Knoxville College,
High School English and Psychology.

MATHEMATICS

J. S. ESTILL, B. L., Berea College,
Mathematics.
L. P. WOODSON, A. B., Wilberforce University,
High School Mathematics.
WALTER L. SHORE, A. B., Simmons University,
High School Subjects.

SCIENCE

L. J. HARPER, B. A., Atlanta University,
Physics and Chemistry.
J. S. HAMER, A. B., Lincoln University,
Biology and Agriculture.

LATIN AND FRENCH

MISS SALLIE F. ELLISON, A. B., Fisk University,
Latin and French.

HISTORY AND GEOGRAPHY

P. W. L. JONES, Dean, A. B.,
K. N. & I. I., Simmons University, University of Pennsylvania,
History and Sociology.

AGRICULTURE

ROBT. S. BLYTHE, K. N. & I. I., High School,
Agriculture
P. W. WILLIAMS, K. N. & I. I.,
Poultry Raising, Agriculture, and History.

HOME ECONOMICS

MRS. ELLA HARRELD, Hampton Institute, Chicago University,
High School, Jr. and Sr. College Cooking.
MISS ALICE K. MUNDY, Pratt Institute,
High School and Junior College Sewing.
MISS MABEL OVERSTREET, Berea College,
High School, Junior and Senior College Sewing.

TRADES

P. P. WATSON, A. & T. College,
Carpentry and Furniture Repairing.
CLYDE DEHUGUELEY, Tuskegee Institute,
Shoe Repairing.

MUSIC

MISS IOLA M. JORDON, Louisville, School Music,
Public School Music.
MRS. ANNA M. FRYE, Simmons and Chicago University of Music,
High School Music.

BUSINESS COURSE

MISS BEATRICE B. BROWN, Wilberforce University,
Shorthand and Typewriting.

PRACTICE SCHOOL

MISS ELLEN H. CUNNINGHAM, K. N. & I. I.,
Critic Teacher.
MISS MATTIE McELROY, K. N. & I. I.,
First and Second Grades.
MISS WILLIE DISHMAN, K. N. & I., Western Reserve,
Third, Fourth and Fifth Grades.
J. L. WHITE, Hampton Institute,
Smith-Hughes Agriculture, Teacher Trainer.

PROFESSIONAL AND EXTENSION WORK.

MRS. E. L. McGEE, Wilberforce University, Smith-Hughes,
Home Economics, Teacher Trainer.
MISS EDITH JONES,
Stenographer Extension Department.
EDWARD E. UNDERWOOD, M. D.,
Medical Inspector, Lecturer on Hygiene and Sanitation.

OPERATION AND MAINTENANCE OF PLANT.

JAMES JORDAN,
Superintendent Heating and Lighting Plant.

W. D. BLACK,
Farm Manager.

MRS. JENNIE THOMPSON,
Stewardess.

MRS. ANNA E. HOOD,
Matron.

LLOYD GRAVES,
Superintendent of Buildings and Grounds.

LAFAYETTE ALEXANDER,
Night Watchman.

COMMITTEES OF THE FACULTY

Executive Council:

Dean P. W. L. Jones, Prof. Estell, Prof. Bond, Prof. Shobe,
Prof. Williams, Prof. Watson, Prof. Fletcher, Mrs. Anna
E. Hood.

Discipline:

Prof. Estell, Dean Jones, Prof. Bond, Prof. Williams.

Athletics:

Prof. Harper, Prof. Black, Prof. Hamer, Miss Brown, P.
W. Williams.

Examinations, Promotions, Certification and Graduation:

Prof. Bond, Prof. Estell, Dean Jones, Miss Cowen, secretary.

Uniform and Dress:

Prof. Watson, Mrs. McGee, Mrs. Cunningham, Miss Elliso-
n, Prof. Blythe.

Religious Exercises:

Prof. Estell, Prof. White, Mrs. Watson, Miss Jordon, Mrs.
Frye, Miss Mundy.

Library and Student Organization:

Prof. Fletcher, Prof. Woodson, Prof. Black, Prof. De-
Hughly.

Health and Sanitation:

Mrs. Harrel, Mrs. Hood, Miss Brown, Prof. Watson, Prof.
White.

HISTORICAL OUTLINE

1886—General Assembly of Kentucky passed "an act to establish the State Normal School for Colored Persons." This act was approved by Governor J. Proctor Knott on the 18th day of May, 1886. The city of Frankfort, through its council donated \$1,500.00 for the purchase of site for the school. This site has since been known as "Normal Hill."

1887—Recitation Hall containing four rooms and a chapel was erected. John H. Jackson, A. M. (Berea College), was elected President. The school opened its doors on October 11 with three teachers. The school year closed with an enrollment of fifty-five students.

1888—The Faculty was increased to four members. The enrollment for the year was eighty-eight students.

1890—The Departments of Home Economics, Agriculture and Mechanics were organized. The Faculty was increased to six members. First commencement, a class of five was graduated.

1893—The preparatory, or High School Department was organized.

1894—A frame dormitory for girls (now Senior Girls' Home) was erected. The General Assembly gave the right to confer "State Diplomas" upon its graduates. These diplomas license the holders to teach in the public schools of Kentucky for life without examination.

1897—An addition of five rooms and a large chapel were made to Recitation Hall.

1898—President Jackson resigned. James E. Givens, A. B. (Harvard University), was elected President. A farm of 265 acres was purchased for agricultural purposes. A Printing Department was established.

1900—James S. Hathaway, A. M., M. D. (Berea College and Simmons University), was elected President.

1902—The name of the school was changed to "The Kentucky Normal and Industrial Institute for Colored Persons." The General Assembly appropriated \$15,000.00 to build a new dormitory for girls.

1906—Ladies' Hall (girls' dormitory) was completed and occupied. The Faculty was increased to ten members.

1907—A water system was installed. President Hathaway resigned. John H. Jackson, A. M., was again called to the presidency of the Institute.

1908—The General Assembly gave \$40,000.00 to the school for buildings and improvements.
The Model School was organized.

1909—Hume Hall and the Trades Building were erected.

1910—President Jackson resigned.
James S. Hathaway, A. M., M. D., re-elected President.
Steam and electric light plants were put in operation.

1911—The Summer School was organized.

1912—President Hathaway resigned.
G. P. Russell, LL. D. (Berea College), elected President.

1917—Athletic Field was built.

1918—The Faculty was increased to eighteen members.

1919—The President's House was erected.

1920—The Smith-Hughes Vocational work was organized and began operating.
The Kentucky Normal and Industrial Institute was made a center for the rehabilitation of ex-service men.
Memorial Hall (boys' dormitory) was erected.

1921—Rosenwald School was built.
The Faculty was increased to twenty-eight members.
The industrial (trades) courses were strengthened.

1922—The General Assembly appropriated \$40,000.00 for maintenance in 1922 and \$40,000.00 for maintenance in 1923.

1923—F. M. Wood, Paris, Ky., State Supervisor of High Schools, elected President.
Nine additional teachers were added to the Faculty.

1924—G. P. Russell, LL. D., re-elected President.

GENERAL INFORMATION

The Kentucky Normal and Industrial Institute was established by an act of the General Assembly in 1886, under the name of "State Normal School for Colored Persons," and is consequently a part of the public educational system of the state.

By an act of the General Assembly in 1902, the name of the school was changed from the "State Normal School for Colored Persons" to "The Kentucky Normal and Industrial Institute for Colored Persons," and the president of the institute was made an ex officio member of the Board of Trustees.

Location.—The Kentucky Normal and Industrial Institute is situated about three hundred feet beyond the city limits of Frankfort, on a beautiful hill overlooking the city. Its campus consists of about thirty-five acres of rolling land, beautifully studded with evergreen and deciduous shade trees. Its farm consists of two hundred sixty-five acres of choice bluegrass land, adjoining the campus.

The Louisville & Nashville Railroad, carrying not only its own trains, but those of the Chesapeake & Ohio Railroad Company, passes through this farm. The Kentucky Central Traction Company's lines also, with both its city and interurban cars, pass through the school's farm, skirting its campus, with stations at its entrance. Visitors coming to Frankfort over the interurban line may be set down at the gate of the institution by requesting the conductor to stop at "Station 73."

The Frankfort-Lexington turnpike passes between the campus and farm, forming the dividing line between them and on which entrances are located to both campus and farm.

Water.—The school is fortunate in its water supply. On the farm there are a dozen springs yielding pure clear water, from three of which water is piped to a reservoir and then pumped to a steel tank on the campus, for drinking and general use, and to fire hydrants properly placed for the protection of all buildings.

Light.—The campus and buildings are lighted by electricity from the school's power plant. A veritable network of arc lamps dotting the campus makes it the pride of all by night, as well as by day.

Music.—This school emphasizes the teaching of public school music as a part of the educational development of its students. Opportunity for instrumental music is given on a private basis.

Military.—In keeping with the demand of the Federal Government, the school maintains a school of military science and tactics. The department is found to be very helpful in correcting habits of carelessness in carriage and bearing in the young men, greatly enhancing discipline in the school and simplifying and reducing the cost of clothing by requiring them to wear standard regulation uniforms.

Literary Societies.—Two literary societies are fostered for the development of the young men and women. The Jacksonian for the young men and the Phillis Wheatley for the young women, meet weekly and furnish excellent training in public speaking, parliamentary rules or usage and other literary work.

Religious Societies.—Realizing the great advantage of training the heart as well as the head and hands of its young men and women, thus awakening and quickening their sense of responsibility for their less fortunate fellows, a model, non-sectarian Sunday School, a Y. M. C. A. and a King's Daughters' Society are maintained in the school for the development of their religious instincts. Aside from the Christian organizations, the school is opened with devotional exercises daily.

Athletics.—For the development of vigorous and rigorous physiques, and inspiring in young men and women a high sense of honor and fair play in the world's contest, an athletic association is maintained, fostering all school games and contests, and out-of-door exercises are encouraged among both sexes. As a result, the tennis court is the most popular resort on the campus for both boys and girls, and our strong teams of basketball and football have done much in the upbuilding of the institute.

SOCIAL INTERCOURSE

Social intercourse, properly supervised, will be encouraged and emphasized in this institution. Socials and other forms of entertainment, calculated to develop the social side of life among the students, will receive special attention by the authorities of the Kentucky Normal and Industrial Institute.

LECTURES

During the school years, students will be given opportunity to hear some of the most prominent and gifted speakers in Kentucky and in other states.

Health.—The school is careful to guard zealously its students' health, and is unsparing in its efforts to ward off all encroachment of diseases of any kind and has been remarkably successful in preserving the health of its student body. An annual fee of three dollars is charged, which guarantees each student medical attention from a competent physician.

BUILDINGS

Recitation Hall.—The Recitation Hall of the institute is a substantial brick building of two stories and a tower, of a style of architecture which gives it the appearance from a distance of an old German castle. It contains the class rooms, the Dean's office and gymnasium.

Ladies' Hall.—Ladies' Hall is a commodious brick structure, four stories high including basement, and is heated by steam and lighted by electricity. The laundry and ironing rooms are splendidly furnished with modern machinery, which does away with the labor of hand washing and ironing. The first floor contains the dining room, assembly room, lady principal's office, students' reception room, music rooms and the guest chamber. On the second and third floors are the young ladies' dormitories.

Hume Hall.—Hume Hall contains offices for the President and his Secretary, and also for the Business Department. It houses the Library, Auditorium and the Departments of Domestic Science, Domestic Art, and Millinery. The building is a stone structure, modern in appearance, equipment and arrangement, and is well fitted for the purposes for which it is used. The teachers and students assemble in this auditorium daily for morning devotions and short talks by the President and members of the faculty.

Trades Building.—The Trades Building is a large two-story stone structure, with a basement in which the Department of Steam and Electrical Engineering is located. An electrical light-

KENTUCKY NORMAL AND INDUSTRIAL INSTITUTE 17

ng plant furnishes lights for all buildings and for the campus lights. A central heating plant is also located in this basement, furnishing live steam for power and exhaust steam for heating the buildings.

The first floor of this building contains the Departments of Printing, Carpentry, Manual Training and Woodworking Machinery. It contains also the Trade Students' Drawing Room, supply room and a lumber room, as well as the office of High School Supervisor and Teacher Trainer of Agriculture.

The second floor contains the Agricultural Laboratory, the general drawing room, band room and armory. In the attic is the blue print room.

Memorial Hall.—The boys' dormitory is a substantial three story brick building, and is well located and conveniently arranged for the comfort of young men.

The President's residence was erected in 1918. It is located near the entrance to the school campus, and occupies a commanding view of the city of Frankfort, the institute farm and the surrounding country.

The Rosenwald School.—The generous donation of \$1,200.00 by Mr. Julius Rosenwald, of Chicago, supplemented by liberal contributions from the white and colored people of Frankfort, enabled the trustees of the institute to erect a model rural school building, which serves the three-fold purpose of a rural school, a practice school for teacher training, and a community center. The building is of brick, heated by furnace, and has ample cloak rooms. The trustees of the institute have set apart four acres of valuable ground around the school building to be used as a playground and for school gardens.

EXPENSES 1924-25.

Tuition to residents of Kentucky	Free
Residents of other states	\$2.00 per mo.
Board and room	15.00 per mo.
Matriculation	5.00 per yr.
Medical fee	3.00 per yr.
Lyceum fee	3.00 per yr.
Laboratory fee	3.00 per yr.
Incidentals	3.00 per yr.
Athletic fee	3.00 per yr.

All students who do not do their own laundering are expected to have their laundering done in the school laundry. The cost of laundering will average not more than \$1.50 per month.

In addition to the above expenses, every student is required to do an amount of manual labor equivalent to $1\frac{1}{2}$ hours per day, including Saturdays.

Payment of all bills is required in advance. No deductions are made from the monthly board bill, except in the case of protracted illness necessitating a student's absence from school for more than a week, or such other instances as may be agreed upon by the president.

Rooms are furnished with bedstead, springs, mattress, table, washstand, bowl and pitcher, looking glass, chair and electric light. All students have to provide their bed linen, covering, pillow, towels, etc.

The institution does not promise students the opportunity to work their way through school. A few pay part of their expenses by work as janitors or in the boarding department. These positions will, in all cases, be given to the most deserving. Young men who desire it can frequently find work on the institute farm, for which they will be paid the current wages for that class of labor. No one should come without **SOME MONEY**, expecting the institution to provide work for them by which they may meet their bills.

ADMISSION

1. The institution is open to both sexes. All applicants for admission must possess good health, and furnish testimonials of a good character from reputable citizens in the community from which they come. Persons coming from other schools must furnish certificates of honorable dismissal.

2. At the time of matriculation the applicant must sign a written pledge that he will teach at least two years in the common schools of the state, or pay such tuition as the board of trustees may see fit to levy, in case he should later change his plans and not teach. Such pledge is not, however, required of those who matriculate for agriculture, mechanics or domestic science with a view to specialize in these subjects.

Registration.—1. All who come to enter the institute must report first to the Dean in his office in Recitation Hall for registration and assignment.

2. From the Dean's office the applicant goes to the Secretary's office for the payment of fees.

3. After the applicant has paid the required fees to the Secretary and has received receipts for the same he reports to the teachers of the classes to which he has been assigned for class enrollment.

Attendance and Discipline.—Regular attendance, faithful application to work and study and good deportment are required of every student. The aim of the institution is to make its students law-abiding, useful citizens of the Commonwealth.

One great barrier to good discipline and successful work is irregular attendance. We, therefore, urge upon our students the necessity of entering school at the beginning of the session, continuing till the close, and regular attendance upon class work, if they would obtain the best results from their connection with the institute.

The use of tobacco in any form, strong drink, the possession of firearms and instruments for gambling is strictly forbidden, and violators of this rule will be promptly and rigidly punished.

All students are required to attend chapel exercises daily.

No student is allowed to leave the school grounds without permission.

Uniforms.—Students both male and female will be required to wear regulated school uniform throughout the session. Uniform dress for young women, consisting of navy blue serge skirt and jacket, a black felt hat, will cost about \$30. Ordinary blue waists and skirts for everyday wear will cost about \$10 or \$12.

We suggest that all young women purchase this uniform after they arrive at the Institute as this will enable all to secure uniformity of material as well as uniformity of price.

Young men should consult the President before purchasing uniform.

All jewelry and other ornamental dress should be left at home.

Library.—A good library is necessary to the success of any institution, therefore, we are endeavoring to secure such a library that will meet the needs of our students. To the number of good books already on hand we add year by year such others as we may receive by donation or are able to purchase. Reading rooms are maintained in all the dormitories.

Laboratories.—Laboratories for experimental work in the various sciences will be available at the school. A fee of three dollars mentioned elsewhere under expenses, is charged for use of laboratory equipment and unnecessary breakage.

SYSTEM OF RATING.

- A. Exceptional Standing.
- B. Good.
- C. Fair.
- D. Unsatisfactory.
- E. Failure.
- I. Incomplete.
- X. Absent from Examinations.

CREDITS

Credits on Secondary Classes are recorded in "Units." One "Unit" is given for five recitations per week, in any required or elective study, for a term of forty weeks.

College credits are recorded in semester hours. A semester hour is defined as a period of forty-five minutes in length, of one recitation per week, in any particular study, for a term of twenty weeks.

Two hours of Laboratory or Industrial work equal one hour of class work.

A recitation hour is a period of forty-five minutes in length in the clear.

ACCREDITED SCHOOLS

Accredited relations will be accorded to schools which have been inspected by the State Department of Education and which have been approved and recommended for accredited relation by the Accrediting Commission for the State of Kentucky.

COURSES OF STUDY

The following is the law governing the issuing of Certificates and Diplomas, Section 4535 Kentucky Statutes, Carroll's Edition:

"Certificates and Diplomas May be Granted by the Board."

—The board is authorized to grant, from time to time, certificates of proficiency to such pupils as shall have completed the prescribed course of study in any department of the institution, and whose moral character and disciplinary relations to said school shall be satisfactory. And such teachers as shall have completed the prescribed course of study in the Normal department, and exhibited satisfactory evidence of ability to instruct and manage a school, shall be entitled to diplomas appropriate to such degrees as the board shall confer upon them, which diplomas shall entitle them to teach in any of the colored common schools of this State."

HIGH SCHOOL COURSES

Two kinds of high school courses will be maintained, academic and vocational. The academic course is maintained for students who desire a liberal education; it follows the regulations governing such courses as prescribed by the State Board of Education. The vocational courses are maintained for those students who desire a general education beyond that provided by the common schools, and at the same time expect to prepare themselves for some definite vocation or trade. All vocational courses, with the exception of teacher-training courses, conform to federal and state standards giving such courses.

ACADEMIC COURSES

The academic high school course is four years in length. To enter it, students must be sixteen years of age, must have completed the eighth grade of the common school, and must also have exhausted all public high school opportunities at their homes.

In addition to the above requirements, all students in this course will be required to take from one to two periods per week in music and a like amount in physical education throughout the course.

JUNIOR COLLEGE COURSE

It is the intention of those in authority to provide as soon as funds are available full four-year college courses. For the present, however, no course will be continued beyond the second college year. The junior college course is maintained for those students who desire a liberal education but who are not preparing for a definite vocation.

COURSE OF STUDY

The junior college course is two years in length, and is designed to give students the first two years of a standard four-year college course. To enter this course, students must have completed a four-year course in an "accredited" high school or its equivalent.

TEACHERS' COURSES

Three different courses are maintained for the training of regular teachers: (a) Elementary Certificate Course; (b) Intermediate Certificate Course; and (c) Advanced Certificate Course.

ELEMENTARY CERTIFICATE COURSE

The elementary certificate course is two years in length. To enter it, the student must be sixteen years of age and have completed the eighth grade of the common school. Students completing this course will be granted an elementary certificate good for two years in any public school.

ADVANCED CERTIFICATE COURSE

The advanced certificate course is two years in length. To enter it, a student must have finished (a) the intermediate certificate course, in which case the work of the student will be adjusted so that needless duplication will be avoided; or (b) completed a four year course in an "accredited" high school. After three years successful teaching the advanced certificate may be extended for life.

TEACHERS' COURSE IN AGRICULTURE

The teachers' course in agriculture is designed to prepare teachers to teach agriculture in both elementary schools and high schools. To enter it, students must have completed a four-year course in an "accredited" high school, specializing in agriculture. Those who complete this course are granted a special teacher's certificate in agriculture good in any public elementary or high school.

TEACHERS' COURSE IN HOME ECONOMICS

The teachers' course in home economics is designed to prepare teachers to teach home economics in both elementary schools and high schools. To enter it, students must have completed a four-year course in an accredited high school and have had as a part thereof two years' work in home economics. Those who complete this course are granted a special teacher's certificate in home economics valid in any public elementary school or high school.

KENTUCKY NORMAL AND INDUSTRIAL INSTITUTE 33

AGRICULTURAL COURSE

The agricultural course is a four-year vocational course, subject to the federal and state standards governing such courses, and is designed to prepare students for practical farming. About three-fourths of the student's time is devoted to academic work and about one-fourth to agriculture; in addition, the student will be required to carry each year at least six months of practical work on the farm. To enter this course, students must be sixteen years of age, must have completed the eighth grade of the common school, and must also have exhausted all similar home public high school opportunities.

In addition to the above requirements, all students in this course will be required to take from one to two periods per week in music and a like amount in physical education.

TRADE COURSES

Five trade courses are maintained; carpentry, masonry, stationary engineering, furniture repairing, and shoe repairing. These are vocational trade courses, subject to the federal and state regulations governing such courses, and are designed to prepare students to become skilled workers in these trades. With the exception of the course of shoe repairing, they are four-years in length. One-half the student's time is devoted to academic studies and one-half to work in the trade which the student expects to follow. To enter these courses, students must be 16 years of age, and have, as a rule, completed the eighth grade of common school.

DEPARTMENT OF ENGLISH

ENGLISH COMPOSITION I.—A thorough review of English Grammar and syntax is here given. Emphasis should be laid upon written composition, punctuation, spelling, diction, short themes, letter writing and original stories. Text: *Lieper*. (Second semester the same)

ENGLISH II.—History of English Literature, theme writing, read *Merchant of Venice*, *Ivanhoe*, *Silas Marner*, and *As you Like it*, *Hamlet* and *Milton's Paradise Lost*. Text: *Metcalf*.

ENGLISH III.—American Literature, read Tennyson's *Idylls of The King*, *Selections from Dunbar*, *Longfellow's Wreck of The Hesperus*. (Continued through the year).

ENGLISH IV.—Advanced Composition and Rhetoric, A study of English Composition with respect to style, diction, and literary form. Read and discuss articles in the Current Magazines. Text: *Tanner*. (Continued through second semester).

COLLEGE ENGLISH

FIRST YEAR ENGLISH V.—Emphasis should be laid on building a larger vocabulary, on attaining a distinctive style in writing and speaking. Some attention is given to Argumentation and debate. Text: *Slater*.

SECOND YEAR ENGLISH VI.—The study of Representative English Essays. Theme writing, write a review of some book or publication.

EDUCATION

COURSE I.—In this course psychology and child study is emphasized. Attention is also given to the hygienic consideration of the child.

COURSE II.—This course embraces a study of secondary education and the principles of teaching.

COURSE III.—Special and general methods are intended to prepare the student to teach in the elementary grades, from first through the eighth grade.

COURSE IV.—This course includes a study of school management and a study of the school laws of Kentucky.

Every student is required to spend at least two weeks in practice teaching, and at least one week in observation.

THE ANNUAL CATALOG OF THE
MATHEMATICS

ALGEBRA I.—This course is taught during the first year high school. Thorough drill is given in the four fundamental operations of algebra, factoring and fractions.

ALGEBRA II.—This course embraces the study of equations, involution, evolution, radicals, pure and effective quadratics, the binomial theorem and proportion. Graphic representations are made throughout the course.

GEOMETRY III. The aim in geometry is to train the eye and hand in the use of tools, the straightedge, triangle, protractor and compass: to develop the reasoning powers as applied to plane geometrical forms.

SOLID GEOMETRY IV.—This course is a continuation of course III with many additional exercises and original problems.

PLANE TRIGONOMETRY V.—This course includes the solution of right triangles, functions of acute angles; trigonometric analysis; trigonometric equation; graphs of functions and practical problems.

LATIN

LATIN I.—The first half year will be devoted to a thorough drill in "First Latin Lessons," declensions, conjugations, simple rules of syntax. During the second semester easy fables should be read and continued drills in declension and conjugation.

LATIN II.—Continue study of syntax, read easy selections from Roman History and two books of Caesar first semester. Second semester, read two books of Caesar and give attention to prose composition.

LATIN III.—Read four of Cicero's orations, (selected). Look up facts concerning the political history of Rome, the senatorial and magisterial government, etc.

LATIN IV.—Virgil's Aenid will be read: There should be parallel reading in mythology extensively elaborated by the teacher.

DEPARTMENT OF SCIENCE

GENERAL SCIENCE I.—This course includes some knowledge of biological and geological science, the science commonly employed in home economy. Household physics and chemistry. *Caldwell and Eikenberry.*

BIOLOGY II.—The course in biology is intended to give a brief survey of the living organisms as they exist in the plant and animal world. Various types are studied in the laboratory with a view of increasing the students' interest in the economic value of plants and animals. Text: *Hunter.*

PHYSIOLOGY AND HYGIENE III.—Third year high school. Under this general subject is treated the science of Human Physiology and the art of Hygiene. Text: *Conn-Buddington.*

GENERAL CHEMISTRY IV.—Third year high school. This course consists of recitation and laboratory work. Individual laboratory work is required of every student, such as will give the beginner a good grasp of the fundamental principles upon which the science of Chemistry rests. Text: *McPherson and Henderson.*

PHYSICS V.—Fourth year high school. This course includes a study of elementary mechanics, heat, light, sound, electricity, magnetisms and the solution of problems. Text: *Willikan and Gale.*

CHEMISTRY VI.—Through the first year College. This course is given by lectures, recitations, and practical experimental work in the laboratory. Each student is expected to put in two laboratory periods a week through the session. Text: *McPherson and Henderson.*

PHYSICS VII.—The second year of College work. Text: *Henry S. Carhart.*

SILO AND DAIRY BARN

SUMMER SCHOOL

June 15, 1925

GENERAL INFORMATION

The summer session of the Kentucky Normal and Industrial Institute will begin Monday, June 15, 1925, and continue five weeks. Instruction will be given six days in the week, which will include Saturdays, thus enabling those in attendance to prosecute the work of six full weeks in five calendar weeks.

The Institute is particularly pleased to be in position to offer the following Certificate Courses and Diploma Course:

Elementary Certificate Course which permits the holder to teach in the Common Schools of Kentucky two years,

Intermediate Certificate Course which permits the holder to teach in the Common Schools of Kentucky four years.

Advanced Certificate Course which confers on the holder authority to teach in the Public Schools of the State three years and which may be extended for LIFE after three years' successful work, and

State Diploma Course (Normal Course) in which those completing the course are granted State Diplomas which license them to teach in the Public Schools of Kentucky for life.

A diploma from the Kentucky Normal and Industrial Institute is reciprocal in eighteen states of the Union.

PRACTICE TEACHING AND OBSERVATION

The Model School of the Institute will be in operation during the Summer School, thus giving teachers an opportunity to do practice teaching and to observe methods of instruction, class recitation, school discipline, and playground management.

FACULTY

The Summer School will be conducted by President G. P. Russell with the assistance of the regular faculty of the Normal and specialists from other institutions.

CREDITS

All students who complete in a satisfactory manner the work of the Summer School will be given credits which may be applied to any one of the courses which the student may elect. Full credit for six weeks will be given for the attendance of five weeks as mentioned elsewhere.

EXPENSES

Tuition	\$7.50
Board, room, light, fuel, per week	6.00

TEXTS

Teachers should bring with them as many text books, both basal and supplementary, as convenient in order that there might be a saving in the purchase of books.

COUNTY EXAMINATIONS

The examination for county teachers which occurs in June may be taken here, thus obviating the inconvenience of teachers having to return to their homes at a considerable expense.
